# We Are Constantly Innov- ative

We grow through inspiration, inventions and innovation which keep us updated with the industry changing trends.

Over the years MGT has relied on its core strengths to help consolidate and grow its business

04

## ISO & HACCP Certification

MGT is an ISO & HACCP certified company

ISO 22000:2018 is the international standard for food safety management systems. It outlines standard requirements for organizations in the food chain to control food safety hazards and ensure safe consumption. The standard integrates with other management systems for effectiveness and efficiency, providing a framework for implementing a Food Safety Management System (FSMS).

The HACCP - Food Safety Management System meets the requirement of the Codex Alimentarius Commission (CAC)-established by the World Health Organization and the Food and Agriculture Organization of the United Nations to bring together international food standard, guidelines and codes of practice to ensure fair trade of MGT.
